

# The Secret to Falling in Love

By Scottyji

Let's see...

What have you learned about love so far?

Well, it often hurts

And it is often absent

And it is ridiculously hard to find or keep

Yet my heart so yearns to be loved

And I present myself, I think, quite nicely

Is there a secret I don't know?

I sure would love to fall in love

This is so important that we should consult an expert

Let's ask Love

Love, what is the secret to falling in love?

No secret at all my sweetheart

I've been your lover since the moment

you first thought of love

Ecstasy is so much closer than you imagine

So far, you seem only to have flirted with me

No matter at all

I'll never stop waiting for you to fall madly in love

With me
